Sir:

In order to comply with 37 CFR 1.97 and 1.98, attached hereto is Form PTO-1449 and copies of the documents listed thereon.

Enclosed is a copy of an International Preliminary Examination Report issued on September 16, 2003 for the PCT application corresponding to the present U.S. application.

With reference to the Supplemental Information Disclosure Statement submitted on April 30, 2003, the applicants previously disclosed references cited in a PCT search report for the corresponding international application to the present case along with a copy of the PCT Search Report itself. In that search report, the PCT Examiner had preliminarily characterized the cited references in category "X".

As is indicated by the enclosed International Preliminary Examination Report, after further considering the disclosure in those references and the present claims, the PCT Examiner, Mr. Vincent Millin, has concluded that the cited art, either individually or in combination, does not disclose or suggest the method and system recited in the independent claims of the PCT application. The PCT claims correspond to the pending claims in the present U.S. application.

Applicants respectfully request the Examiner's consideration of the cited reference and entry into the record of this application and that it be cited of record in the prosecution history of the present application by initialing Form PTO-1449 next to the document. Such initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

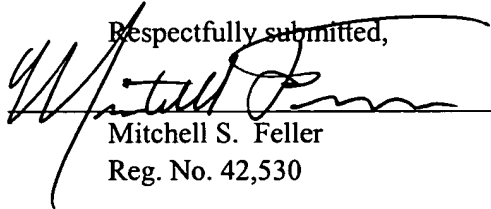

The present Information Disclosure Statement is being submitted in compliance with 37 CFR 1.56, but the citation of such document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR 1.104 and, in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

The present Information Disclosure Statement has been submitted prior to the receipt of an Office Action in this application. Accordingly, no fee is due. However, in the event that a first Office Action was mailed on or before the date of submission of this disclosure statement, the Commissioner is hereby authorized to charge any fees to deposit Account No. 50-0521.

Date:

Oct. 3, 2003

Respectfully submitted,
